

SOLID WASTE DIRECT BILLING APPLICATION FOR PROPERTY OWNERS

Beginning in July 2017, the annual property tax bill will include residential barrel trash and recycling service charges. This eliminates the need for postage, writing checks, avoids late payments and results in a lower rate for solid waste services with a savings of \$7.20 per year.

Property owners who wish to continue the direct quarterly billing option for the next annual property tax bill cycle, without the \$7.20 savings, can opt out of the property tax billing program. The application must be received by August 18, 2017, and sent to the following address, email or fax:

Burrtec Waste Industries, Inc. 1850 Agua Mansa Road, Riverside, California 92509, or Fax to: (951) 786-0682, or email to rivmail@burrtec.com. Applicant's name must match the property owner as recorded in the county's assessor's records.
